ES Software desarrollado para elaborar proyectos de iluminación de emergencia con gran precisión. Permite definir la colocación de las luminarias para cumplir con la norma EN 1838 y otras de carácter específico, optimizando el coste del proyecto. Daisalux, con el objetivo de garantizar la correcta elaboración de sus proyectos, pone a su disposición, de forma gratuita, la realización de los mismos en nuestro departamento especializado (projects@daisalux.com).

EN Software developed for producing high precision emergency lighting projects. It can be used to determine the position of the luminaires in order to comply with regulation EN 1838 and other specific ones, optimising the cost of the project. In order to ensure that your projects are correctly designed, Daisalux will prepare them free of charge in our specialised department (projects@daisalux.com).

DE Software zur Erstellung von Notbeleuchtungsprojekten mit hoher Präzision. Ermöglicht die Anbringung der Leuchten gemäß der Norm EN 1838 und andere spezifische Normen und optimiert die Projektkosten. Daisalux möchte Ihnen einwandfreie Projekte garantieren. Daher stellt Ihnen das Unternehmen eine spezialisierte Abteilung zur Verfügung, die Ihre Projekte kostenlos für Sie erarbeitet (projects@daisalux.com).

FR Programme développé pour élaborer des projets de luminaires de secours d'une grande précision. Il permet de définir l'installation des luminaires en respectant la norme EN 1838 et d'autres spécifiques, en optimisant le coût du projet. Daisalux, afin de garantir la qualité de ses projets, met gratuitement ces derniers à votre disposition dans notre service spécialisé (projects@daisalux.com).

IT Software sviluppato per l'elaborazione di progetti di illuminazione d'emergenza di grande precisione. Consente di definire il posizionamento degli apparecchi conformemente alla norma EN 1838 ed altre norme specifiche, ottimizzando i costi progettuali. Al fine di garantire la corretta elaborazione dei propri progetti, Daisalux mette gratuitamente a disposizione dei clienti la realizzazione dei medesimi presso il nostro dipartimento specializzato (projects@daisalux.com).

PT Software desenvolvido para elaborar projetos de iluminação de emergência com grande precisão. Permite definir a colocação das luminárias para cumprir a norma EN 1838 e outra específica, otimizando o custo do projeto. A Daisalux, com o objetivo de garantir a correta elaboração dos seus projetos, põe à sua disposição, gratuitamente, a realização dos mesmos no nosso departamento especializado (projects@daisalux.com).
