Design your own *Spaces*

The touch of light with high quality textures triggers a combination of effects that generate strong emotion. The excitement of finding a design that is beautiful and at the same time, eco-friendly.

L'éffleurement, de la lumière avec ses textures de haute qualité déclenche une combinaison d'effets qui génèrent des émotions intenses. L'enthousiasme pour la recherche d'un dessin qui est beau et en même temps durable.

El roce de la luz con sus texturas de alta calidad desencadena una combinación de efectos que generan emociones intensas. La emoción por la búsqueda de un diseño que es hermoso y a la vez, sostenible.

100% RECYCLED · 100% COMMITTED

All ALTOGLASS glass mosaics are manufactured from 100% recycled glass, under strict in the house quality control and with a commitment to environmental protection.

The unwavering commitment to environment protection, to quality and customer service is playing a major role in ALTOGLASS as a leading manufacturer in glass mosaics.

100% RECYCLÉ 100% COMPROMIS

Tous les émaux de verre ALTOGLASS sont fabriqués à partir de verre recyclé à 100% soumis à de rigoureux contrôles durant le processus de fabrication avec un compromis envers l'environnement.

L'inébranlable compromis vers l'environnement, la qualité et le service client joue un rôle important chez ALTOGLASS, ce qui la convertit en une compagnie leader en fabrication d'émaux de verre.

100% RECICLADO · 100% COMPROMETIDOS

Todos los mosaicos de vidrio ALTOGLASS se fabrican a partir de 100% vidrio reciclado, bajo un estricto control en el proceso de fabricación y un gran compromiso con el medio ambiente.

El inquebrantable compromiso con el medio ambiente, la alta calidad de sus productos y el servicio al cliente, son los puntos clave que convierten a ALTOGLASS en una compañía líder en fabricación de mosaico de vidrio.

NIGHT GLASS

PHOTOLUMINESCENT · FOTOLUMINISCENTE

The photoluminescence mosaic NIGHTGLASS from Altoglass is a coating made in a mix of basis glass with a phosphorescent pigment in a synthesizing process.

The photoluminescence materials have the capacity to absorb the ambient light, both natural or unnatural, keeping this light energy while receiving the light and when it turns down they will show this energy in a long luminescence way. Our materials get a high intensity at the beginning.

The photoluminescence attributes are plenty assimilated in the ceramic tiles products increasing for this its durability and resistance in a significant way.

La mosaïque phosphorescentes NIGHTGLASS d'Altoglass est un revêtement fabriqué à base de verre moulu mélangé avec un pigment phosphorescent soumis à un processus de synthèse.

Les matériaux phosphorescents ont la capacité d'absorber la lumière ambiante, qu'elle soit naturelle ou artificielle: retiennent cette énergie lumineuse tandis qu'ils continuent à recevoir la lumière et ensuite quand ils s'arrêtent de la percevoir, ils extériorisent cette énergie sous forme de longue luminescence, ce qui est le cas pour nos matériaux, qui ont une haute intensité initiale.

Les propriétés du phosphorescent sont intégrées pleinement dans la céramique, ce qui augmente la durabilité et la résistance d'une manière très remarquable.

El mosaico fotoluminiscente NIGHTGLASS de Altoglass es un revestimiento fabricado a base de vidrio molino mezclado con un pigmento fosforescente sometido a un proceso de sinterización.

Los materiales fotoluminiscentes tienen la capacidad de absorber la luz ambiente, ya sea natural o artificial; reteniendo esa energía lumínica mientras siguen recibiendo luz y luego cuando dejan de recibirla van a exteriorizar esa energía en forma de larga luminescencia, que en el caso de nuestros materiales tiene una ALTA INTENSIDAD inicial.

Las propiedades fotoluminiscentes se encuentran plenamente integradas en la cerámica aumentando con ello su durabilidad y resistencia de manera muy notable.

PLATINO *collection*

Soft bright pearls form a variety of white colors, providing delicate iridescent flashes and beautifying every chromatic surface.

Douce brillance nacrée compose une variété de blancs, qui apportent de subtils éclats iridescents enrichissant toutes surfaces chromatiques.

Suaves brillos nacarados componen una variedad de blancos, que aportan sutiles destellos iridescents enriqueciendo cualquier superficie cromática.

RUSTIC collection

The irregular texture and its good tonality can suggest its use in outside and interior spaces, where a rustic material is required.

Sa texture irrégulière et sa tonalité ocre peut nous suggérer son utilisation dans des espaces extérieurs et intérieurs, où on requiert une matière rustique.

Su textura irregular y su tonalidad ocre bien puede sugerirnos su utilización en espacios de exterior e interior, donde se requiera un material rústico.

FITTING ADVISE (PAPER)

CONSEJOS DE COLOCACIÓN · CONSEILS DE POSE

1

Spread a coat of adhesive-based cement across the surface, ensuring that it is flat and even.

Appliquer uniformément le mortier colle sur la surface totalement à niveau.

Aplicar uniformemente el cemento cola sobre la superficie bien nivelada.

2

Place the paper-mounted mosaics on top of the cement and press them down with a rubber trowel to guarantee an even surface.

Pose le filet de mosaïque sur le mortier et comprimer à l'aide d'une taloche en caoutchouc en veillant à égaliser les pièces.

Colocar la malla de mosaico sobre el cemento y ejercer presión con una llana de goma para igualar las piezas.

3

Leveling all the pieces.

Aplanir toutes les pièces.

Nivelar todas las piezas.

4

After 24 hours, wet the Kraft paper until it is thoroughly soaked.

Après 24 heures, humidifier le papier kraft jusqu'à l'imbiber d'eau.

Al cabo de 24 horas mojar el papel kraft hasta empapararlo de agua.

5

Remove it with the aid of a sponge to clean off the glue that has remained on the paper.

Retirer le papier à l'aide d'une éponge a fin d'éliminer l'excès de colle restant du support papier.

Retirar el papel con la ayuda de una esponja para limpiar la cola sobrante que quede en el papel.

6

Once it is dry, it can be grouted.

Après séchage, procéder à rejointer.

Una vez esté seco procederemos a aplicar el material de rejunte.

7

Lastly, clean the surface with a damp sponge and then with a dry cloth.

Enfin, nettoyer la surface à l'aide d'une éponge humide, puis passer un linge sec.

Por último, limpiaremos la superficie con una esponja húmeda y posteriormente con un trapo seco.

8

Final result.

Resultat final.

Acabado final.
